

Title: A Message from Dr. Jamal Umar, Director

Dear Parents and Guardians,

Assalamu Alaikum and a very warm welcome to The Children's House Montessori Kindergarten.

My name is Dr. Jamal Umar, and it is my honor to serve as the Director of this remarkable school. I write to you not just as an educator—with fifteen years of teaching physics to A-Level, IGCSE, and IB students—but as someone who has spent his career asking a simple question: *What truly prepares a child for a lifetime of learning?*

After years in secondary and upper school classrooms, I arrived at an answer that changed everything for me: **It begins here. In these early years.**

Honoring Our History

When I first walked through the doors of The Children's House, I knew I had found something special. Established in **1997**, this school carries a profound legacy. It was the **first Montessori nursery school in Bahrain**, and it remains proudly **accredited by the Montessori Evaluation and Accreditation Board (MEAB)**—a mark of authentic Montessori practice that is not easily earned.

For over twenty-five years, this school has nurtured Bahrain's children with fidelity to the Montessori method: mixed-age classrooms, self-directed learning, hands-on materials, and guides who observe rather than instruct. That legacy is not mine to rewrite. It is mine to protect, strengthen, and—most importantly—**share more widely.**

An Honest Conversation About Access

I believe in transparency. So let me speak plainly.

For many years, The Children's House was accessible only to families who could afford a significant monthly investment. The previous fee structure, while reflective of the school's quality, placed it beyond the reach of countless hardworking parents who deeply believed in Montessori education.

When I took stewardship of this school, I made a deliberate choice. I asked myself: *What is the purpose of an accredited Montessori education if only a few can access it?*

That question led to an unprecedented decision.

We have now reduced our fees by more than half—making The Children's House one of the most affordable MEAB-accredited Montessori schools in Bahrain.

Not by cutting corners. Not by reducing materials. Not by lowering teacher qualifications. But by choosing to operate with a sustainable margin rather than a premium one. The authentic Montessori materials remain. The MEAB accreditation remains. The low student-to-guide ratio remains. The prepared environment—the very heart of Montessori—remains unchanged.

What has changed is our conviction: **A child's future should not be determined by their parents' monthly salary.**

What This Means for Your Family

You no longer have to choose between quality and affordability. At The Children's House, your child will receive:

- **Authentic MEAB-accredited Montessori**—recognized by the Montessori Schools Association United Kingdom
- **A legacy of excellence** spanning twenty-five years, since 1997
- **Certified Montessori guides** who observe, respect, and nurture each child's natural curiosity
- **A prepared environment** where children aged 3-6 learn from and lead one another
- **A safe, nurturing community** that feels like a second home

All at a fraction of the cost of comparable international schools in Bahrain.

My Commitment to You

You will see me in the corridors. You will see me observing in the classrooms. You will see me at the gate in the morning. Because a Director's Message is only as real as the Director's presence.

I invite you to visit our school. See the 1997 legacy. Experience the MEAB-accredited environment. Meet our guides. Watch your child work with purpose and joy. And then decide.

Thank you for trusting us with the most important chapter of your child's journey. We are honored—and deeply committed—to making it extraordinary.

Warmly,

Dr. Jamal Umar

Director

The Children's House Montessori Kindergarten Bahrain
